ORGANIZATION OVERVIEW

Headstart Technology Limited is specialized in the implementation and meaningful use of educational technology. We assist educational institutions throughout their digital transformation with consultancy and training services.

Our core mission: to empower students, teachers and parents with the best resources and pedagogy for 21st century education.

ACTIVITIES AND EXPERIENCE OF THE ORGANIZATION:

The company is Microsoft Global Training Partner and operates the Tablet Academy Malta franchise which allows the company to leverage expertise across all major platforms and systems. Headstart is also a registered Certiport exam centre.

Headstart is routinely engaged to deliver training, consultancy, and expertise in the area of professional development, particularly in the fields of digital technologies, 21st Century skills and Lesson Design and Digital Transformation.

STEAM education and communication is a particular focus area of the company, which regularly and designs and delivers hackathons and public outreach events. Headstart also designs and delivers specialized training and education programmes aimed at children and youths. Subject areas include robotics, coding, AI, machine learning, cloud computing and computational thinking.

Immersive technologies and pedagogies are another focus area of the company, with extensive experience in the implementation of immersive and game-based pedagogies.

Headstart Technology Limited has received numerous awards, including being inducted into the 'Hall of Fame' of the European Commission Digital Skills and Jobs Coalition for training thousands of educators during the COVID-19 pandemic on remote teaching methodologies and tools.

INFORMATION ON KEY STAFF/PERSONS

Klaus (Nikolaus) Conrad is the founder and director of Headstart Technology Limited. He holds a Masters degree in Knowledge-Based Entrepreneurship from the University of Malta. He is a member of the Faculty of ICT board at the University of Malta.

Moving from a career in teaching to one in corporate IT, cloud computing and data analytics, Klaus has worked with international companies in the UK, USA and Canada for the past 20 years. In 2015 he founded Headstart Technology Ltd, a company focused on educational technology, professional development, and educational course design.

Klaus is deeply passionate about reforming education to be more relevant to real-life skills and has a particular interest in STEM outreach and the Maker approach to education. He is also a Global Minecraft Mentor, with a strong interest in game-based education pedagogies.
